

# Global Marine Claims

- Cargo
- Commercial Vessels
- Cruise & Small Passenger Vessels
- Inland Marine
- Ocean Marine
- Offshore Energy
- Port & Marina
- Yachts

## Handling Complex Marine Claims

Marine claims are often extremely complex and require the appropriate team of experts to mitigate losses as quickly as possible.

Envista's Marine Group specializes in leading complex investigations following severe marine incidents and accidents. The forensic engineers and experts at Envista have assisted claims adjusters, legal professionals, risk managers, and brokers with claims from ocean-going blue water vessels to brown water vessels on the nation's inland waterways and recreational vessels and yachts.

**With increasing engineering and electronic complexity across a global supply chain and ever greater scrutiny placed on management of the claim, you need to obtain a robust, substantiated opinion on the cause, extent of damage, and critical steps for minimizing loss.**

### ENVISTA'S WORLDWIDE CAPACITY OFFERS:

- » The ability to work one matter across land and sea, as one team, to meet client needs
- » Breadth and depth of subject matter experts that span numerous technical and scientific fields to truly deliver on multi-disciplinary, complex claims
